## Corinne La Vaunt Coming.

Monday the Corinne La Vaunt Dramatic Co. will open up in the Ward Hall with the sensational drama entitled "Anita, the singing girl." This is a bill that has never been presented in the state until the last few weeks, and has been exceptionally well received.

The company is managed by O. L. Farnsworth, who needs no introduction, as he is well known through this section of country and has brought some very good companies to Cedar.

Corinne La Vaunt is with the company and the people will remember her for her bewitching dancing while performing here two years ago. This season she has a novelty dance known as the "Fire Dance," in which she wears a dress of silk containing 100 yards. Electrical apparatus is used to give the effect of fire and her dancing is said to be superb by those who have witnessed her in her work.

The company carries 12 people and has a repertoire of plays that will appeal to all lovers of the drama. They play for one week, and from press reports it is evident the people will be treated to first class shows.

Carpenter Fretwell and assistants are remodeling the School House and otherwise repairing the building.

There is a larger class in the business department of the Branch Normal this year than has ever been known before.

Last evening the Republicans of Cedar met in the City Hall and elected delegates to attend the state convention to be held in Ogden Monday.

Paragonah is represented by fifteen of her young people at the Branch Normal this winter. How's that for a small town? Paragonah is certainly on the right track.

Are you a candidate for an office? If so, just announce that fact and your friends will pull for you. If the office is worth anything, it certainly is worth working and asking for.

Who will be able to hold the combined offices of Supt. of Schools, and county surveyor? Takes a man with a state certificate and one who also understands surveying. So far our political friends have found but one in the county.

Marion Millet stepped into the Record office last Saturday and made the announcement that he was the proud possessor of an 11 pound boy which came to his house the day previous. He states that he has the best ever.

## 11 Pounder For Frank.

Patrons of the Co-op. were at a loss to know what caused the excessive jollity of Frank Wood Thursday, and consequently inquiry was at once instituted. This elicited the fact that his wife had presented him with a 11 pound boy of which he is very proud, it being the second child thus presented him making one of each sex. The babe and mother are receiving the honors due them and are the center of attraction of the Wood and Webster families.

## Candidate for Representative.

Salt Lake City, Sept. 23th.

To the Republicans of Utah:

Standing upon a platform of aggressive Republicanism as connected by such time honored Republicans as ruled the nation from the time of Lincoln to the present, I hereby announce my candidacy for the nomination of Representative to Congress subject to the decision of the Republican State Convention to be held at Ogden on September 26th, 1910.

I feel that my long continued service for the party and in the interests of Utah, which I have at all times endeavored to serve honorably and conscientiously justifies me in asking of the Republican Party of this State this honor.

If elected (and of this there can be no doubt if I am nominated) I shall endeavor to carry out the will of the people of Utah on all national questions affecting their general welfare and that of the state, to the end that it may attain a leadership among the sisterhood of states. If defeated for the nomination, I shall most cheerfully acquiesce in the action of the convention, and the party can rest assured that I shall do all in my power to preserve the unity and integrity of the party and to do my utmost toward its success at the polls on November 8th, 1910.

## Ice and Steel Go Together

Ice makes the fastest kind of a speedway for steel.

Steel runs at a snail's pace on anything else.

Yet ice and steel are nothing alike.

Neither are cloth and brains—but they must work together to produce good clothes.

Any one can make clothes without brains—without form or fashion—that look like a bag on a beanpole.

Add brains to the cloth and you'll get clothes that any man can be proud to wear.

## S. E. Perlberg & Co.

Merchant Tailors, Chicago,

take the same kind of cloth that other people use, and add brains to it. The result is a finished suit made expressly for the wearer that sets off his figure properly, and gives him a distinguished appearance.

When you want the right mixture of cloth and brains in your clothes, just come in and let us show you the Perlberg samples and take your measure for a Perlberg suit.
